About SN Bolting...

SN Bolting exist to provide a solution to these problems. Our goal is to build a long term positive reputation with our industry, based on a foundation of technical attention to detail and expertise.

With our vast experience, we understand the limitations within our industry - where lack of technical accuracy, quality problems, late deliveries & general poor customer service can seem the norm.

SN Bolting exist to provide a solution to these problems. Our goal is to build a long term positive reputation within our industry, that is well known for its technical attention to detail and expertise.

We pride ourselves on offering in-depth technical support, detailed certification packs, high level product quality and a dedicated service - built on good ethics, open communication and trust.

 +44 (0)1384 957820

 sales@snbolting.com

Communication was consistent all the way through, from order placing to goods being delivered. Quality was excellent, an immaculate finish with no burrs or sharp edges & clear stamping on all items.

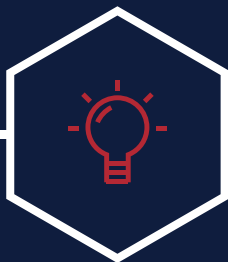

Subsea Valve manufacturer, UK

How we can help your business

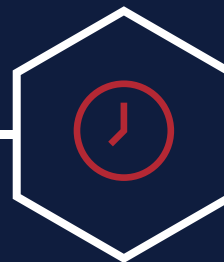

We are an ISO 9001:2015 accredited, service driven specialist in the manufacture and distribution of fully certified, tested & traceable special fasteners and machined components; supplying into some of the world's most prestigious industries, such as **Oil & Gas, Subsea / Offshore, Power Generation / Energy & Nuclear.**

TECHNICAL & INDUSTRY EXPERTISE

SERVICE DRIVEN & CUSTOMER FOCUSED

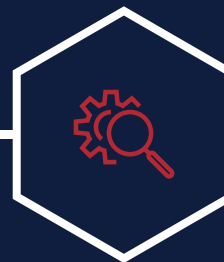

24/7 BREAKDOWN SERVICE & SUPPORT

ON TIME DELIVERIES & REGULAR PROGRESS UPDATES

ACCURATE, DETAILED CERTIFICATION

QUALITY FOCUSED

Markets Served & Product Application

SN Bolting supply bespoke manufactured components to a diverse range of industries and applications – such as Oil & Gas, Subsea / Offshore, Power Generation & Nuclear.

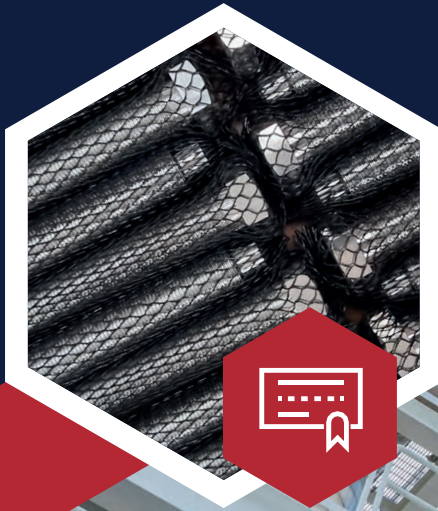

All have common requirements that form part of our strengths and attributes:

- High performance components with full material traceability.
- Quality plan management & detailed documentation.
- Manufactured from exotic materials & super alloys.
- Required on fast turn-around/panic or break-down deliveries.

For more information on how we serve these critical industries

Call +44(0) 1384 957820 or email sales@snbolting.com

Markets Served & Product Application

Delivery and packaging was great. Products manufactured perfectly to drawing. Depth of certification impressive, with additional testing to spec.

Naval Marine Contractor, UK

Oil & Gas, Subsea & Offshore

Upstream (exploration / production), Midstream (process / storage) and Downstream (refinery / plants).

Power Generation & Energy

Turbines, Motors & Generators, Nuclear Plant, Wind Farms, Solar Equipment & Natural Gas Systems.

Nuclear

Auto Claves, Condensers, Cooling Towers, Decommissioning, Generators, Pipelines, Pumps, Valves, Reactors, Turbines, Waste Containment Units.

Other

Naval Marine & Defence, Chemical Processing, Water Treatment, Renewable Energy, Petrochemical, Heavy Engineering, Mining and Distribution.

To find out more about markets & applications, please visit our website.
www.snbolting.co.uk/markets

Products

We are able to manufacture parts to all International Standards (ISO/DIN/BS/ASME/ASTM/Werkstoff etc), along with all technical drawings.

We also have the capability to reverse engineer parts from client sample, in cases where a drawing is not readily available.

Reverse engineering consists of material identification (chemical and mechanical analysis) and technical drawing created by SN Bolting, for client approval prior to manufacture.

Speak to a member of our team by calling

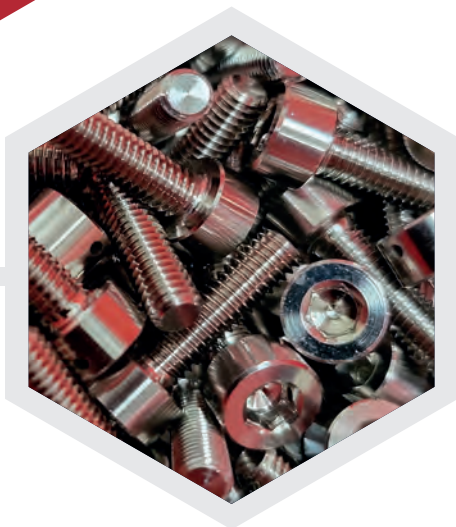

+44(0) 1384 957820 or email sales@snbolting.com

Components are of an excellent quality & detailed documentation provided before delivery, which is always helpful.

Offshore & Subsea client, UK

Headed Products

All head types, manufactured via hot forging or machining, complete to standards or customer drawings.

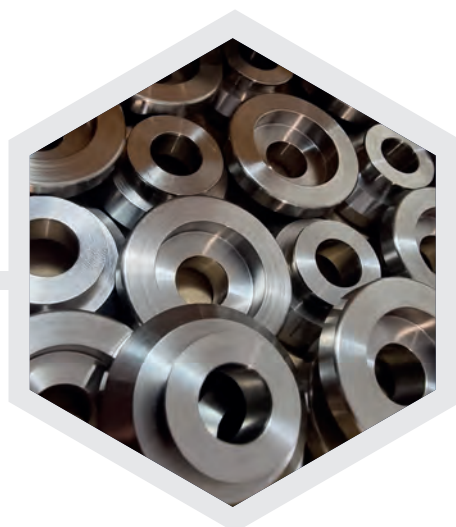

Studding Products

Fully threaded, double ended, waisted studs, tie rods & engineers' studs – with rolled or machined threads.

Nuts

Hexagon, Nyloc, Round, 12 Point (Bi-Hex) & more – manufactured via forging or CNC machining.

Washers

Flat (round), square, spring / shakeproof, tab, spherical & bespoke washers manufactured to client requirements.

Ancillary & Bespoke Parts

Bespoke parts manufactured to client drawing, or reserve engineered from client sample.
